

Slot sensor 147

Vane switches are actuated by ferromagnetic metal plates at the gap of the U shaped housing, so no additional actuating magnet is required. Can also be mounted directly onto metal.

Different variants are available, allowing the switch to be used in a variety of applications, e.g. challenging off-highway tasks or position sensing in plant and mechanical engineering.

Product characteristics

- No additional actuating magnet necessary
- Compact housing for space-saving installation
- Temperature stability and vibration resistance specially configured for the requirements of automotive applications
- IP6K7 protection class
- PBT housing
- 32.5 x 32.25 x 21.51 mm
- PUR cable with Deutsch connector
