#### **Dimensioned drawings**

All dimensions in millimeters

#### Calculation of the effective protective field height HPFE = HPFN + B + C

HPFE Effective protective field height = 928 mm HPFN Nominal protective field height = 900 mm

- A Total height = 966 mm
- B 19 mm
- C 9 mm

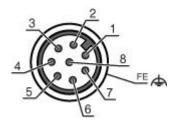

#### Part no.: 68009309 – MLC530R30-900-SPG – Safety light curtain receiver

R Effective protective field height HPFE goes beyond the dimensions of the optics area to the outer borders of the circles labeled with R.

### **Electrical connection**

#### **Circuit diagrams**

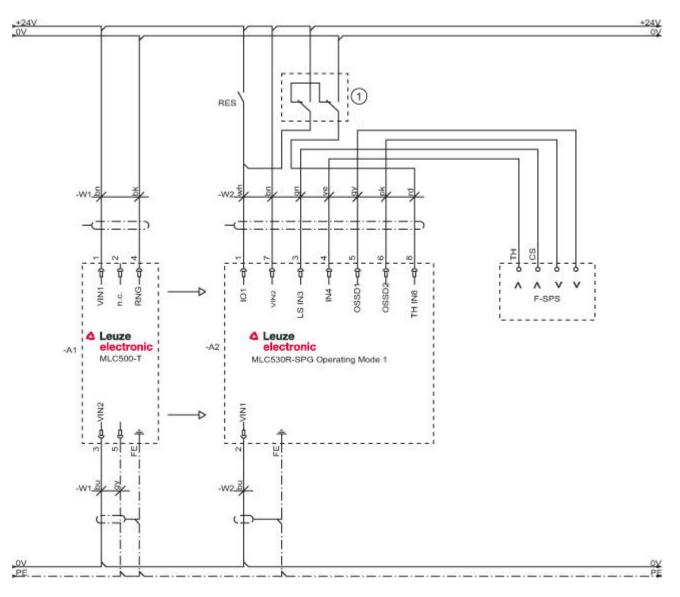

Connection diagram receiver

VIN1 = +24 V, VIN2 = 0 V: transmission channel C1
VIN1 = 0 V, VIN2 = +24 V: transmission channel C2

### Part no.: 68009309 – MLC530R30-900-SPG – Safety light curtain receiver

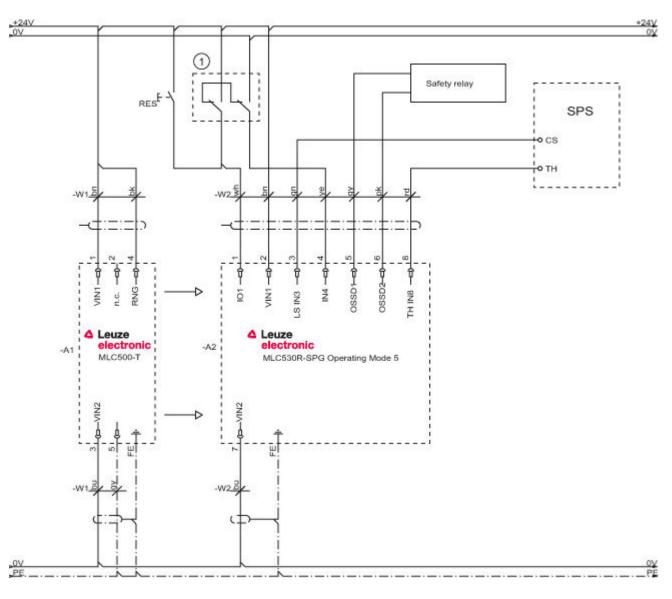

Operating mode 1: connection example with Smart Process Gating (SPG)

1 Optional teach key switch

### Part no.: 68009309 – MLC530R30-900-SPG – Safety light curtain receiver

Operating mode 5: circuit diagram example with Smart Process Gating (SPG)

1 Optional teach key switch

#### **Operation and display**

#### LEDs

| LED | Display                  | Meaning                                                                                                               |
|-----|--------------------------|-----------------------------------------------------------------------------------------------------------------------|
| 1   | Off                      | Device switched off                                                                                                   |
|     | Red, continuous light    | OSSD off                                                                                                              |
|     | Red, flashing, 1 Hz      | External error                                                                                                        |
|     | Red, flashing, 10 Hz     | Internal error                                                                                                        |
|     | Green, flashing, 1 Hz    | OSSD on, weak signal                                                                                                  |
|     | Green, continuous light  | OSSD on                                                                                                               |
| 2   | Off                      | RES deactivated or RES activated and enabled or RES blocked and protective field interrupted                          |
|     | Yellow, continuous light | RES activated and blocked but ready to be unlocked - protective field free and linked sensor is enabled if applicable |

### Part no.: 68009309 – MLC530R30-900-SPG – Safety light curtain receiver

| LED | Display                     | Meaning                                                                                      |
|-----|-----------------------------|----------------------------------------------------------------------------------------------|
|     | Yellow, flashing            | Upstream safety circuit opened                                                               |
|     | Yellow, flashing (1x or 2x) | Changeover of the upstream safety circuit                                                    |
| 3   | Off                         | No special function (blanking, muting, etc.) active                                          |
|     | Blue, continuous light      | Protective field parameter (blanking) correctly taught                                       |
|     | Blue, flashing, 1 Hz        | Muting active                                                                                |
|     | Blue, short flashing        | Teaching of protective field parameters or muting restart required or muting override active |
|     | Blue, flashing, 10 Hz       | Error during teaching of protective field parameters                                         |

#### Suitable transmitters

### Part no.: 68009309 – MLC530R30-900-SPG – Safety light curtain receiver

#### Note

A list with all available device types can be found on the Leuze electronic website at www.leuze.com.

### Notes

#### Observe intended use!

The product may only be put into operation by competent persons.

Only use the product in accordance with its intended use.

### Accessories

### Connection technology - Connection cables

| Part no. | Designation            | Article          | Description                                                                                                                                                  |
|----------|------------------------|------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 50135128 | KD S-M12-8A-<br>P1-050 | Connection cable | Connection 1: Connector, M12, Axial, Female, A-coded, 8 -pin<br>Connection 2: Open end<br>Shielded: Yes<br>Cable length: 5,000 mm<br>Sheathing material: PUR |

### Mounting technology - Swivel mounts

|      | Part no. | Designation | Article              | Description                                                                                                                                                                                                                                     |
|------|----------|-------------|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| P.G. | 429393   | BT-2HF      | Mounting bracket set | Contains: 2x BT-HF swivel mount, 1 cylinder for mounting on<br>the light curtain<br>Fastening, at system: Through-hole mounting<br>Mounting bracket, at device: Clampable<br>Type of mounting device: Turning, 360°<br>Material: Metal, Plastic |
