| ETIM 6.0                           | EC002549                             |

### **Dimensioned drawings**

All dimensions in millimeters

### Calculation of the effective protective field height HPFE = HPFN + B + C

HPFE Effective protective field height = 1240 mm HPFN Nominal protective field height = 1200 mm

- A Total height = 1266 mm
- B 25 mm
- C 15 mm

R Effective protective field height HPFE goes beyond the dimensions of the optics area to the outer borders of the circles labeled with R.

### **Operation and display**

#### LEDs

| LED | Display                 | Meaning                           |
|-----|-------------------------|-----------------------------------|
| 1   | Off                     | Device switched off               |
|     | Red, continuous light   | OSSD off.                         |
|     | Red, flashing, 1 Hz     | External error                    |
|     | Red, flashing, 10 Hz    | Internal error                    |
|     | Green, flashing, 1 Hz   | OSSD on, weak signal              |
|     | Green, continuous light | OSSD on                           |
| 2   | Off                     | Transmission channel C1           |
|     | Red, continuous light   | OSSD off, transmission channel C2 |

### Suitable transmitters

| Part   | no. Designation | Article                             | Description  |

#### Note

A list with all available device types can be found on the Leuze electronic website at www.leuze.com.

### Notes

Observe intended use!

- The product may only be put into operation by competent persons.
- Only use the product in accordance with its intended use.

### Accessories

# Connection technology - Connection cables
